MEET organized by Core Research Foundation is a periodic event hosted in collaboration with educational organization to facilitate Academicians, scholars and researchers working in their field of research by providing overall educational aids. Also this platform is designed to share your knowledge, research and experiences with other enthusiasts, and develop opportunities for cooperation and common goal to new possibilities.

## About CRF

Core Research Foundation (CRF) is a Research Platform recognized by Core research Private Limited, India. In CRF, we are dedicated to provide an outstanding platform for leading institutions, academicians and researchers. We strive create an environment that encourages knowledge scalability and cater to the requirement of associated members by providing conference and journals publication services. Core Research Foundation-CRF is the emerging research platform for academicians, researchers and Scientists. CRF creates, connects and associates throughout global Institutions and research houses to provide knowledge scalability and research advancements with the help of different academic activities.

# Objective of the Conference

The objective of an international conference on management, education, and emerging technology is to provide a platform for researchers, academicians, professionals, and industry experts to come together and exchange ideas, knowledge, and experiences in these key areas. The conference aims to foster collaboration and innovation, addressing challenges and exploring opportunities for advancements in management practices, education systems, and emerging technologies.

- **Knowledge Sharing and Dissemination:** Facilitate the exchange of cutting-edge research findings, methodologies, and best practices in the fields of management, education, and emerging technology.
- **Interdisciplinary Collaboration:** Promote interdisciplinary collaborations among participants from diverse backgrounds, encouraging cross-pollination of ideas and perspectives.
- **Professional Networking:** Provide a forum for professionals, scholars, and practitioners to network and establish meaningful connections, potentially leading to collaborative projects and partnerships.
- **Promotion of Education Excellence:** Showcase and promote excellence in education, encouraging the adoption of effective teaching methodologies, educational technologies, and management practices.
- **Technology Adoption and Integration:** Explore the integration of emerging technologies into management practices and education, discussing the potential impact on efficiency, productivity, and learning outcomes.
- **Cultural Exchange:** Celebrate and appreciate cultural diversity by bringing together participants from different countries and backgrounds, enriching the conference experience.

## Why to Choose us

**1. Expertise in Research:** Core Research Foundation likely has a strong background and expertise in conducting and promoting research. This can ensure a high-quality academic environment for the conference.

**2. Network and Collaboration:** Being associated with a foundation can provide access to a wide network of researchers, scholars, and professionals. This network can facilitate collaboration, knowledge exchange, and networking opportunities during the conference.

**3. Credibility and Reputation:** Core Research Foundation's reputation may add credibility to the conference. Attendees may be more inclined to participate in and trust an event organized by a well-established and reputable research foundation.

**4. Resources and Support:** The foundation may provide logistical support, resources, and infrastructure for organizing a successful conference. This can include administrative assistance, funding, and access to research facilities.

**5. Publication Opportunities:** Some research foundations have established journals or partnerships with reputable publications. This association can provide conference participants with opportunities to publish their research in well-regarded outlets.

**6. Global Reach:** If Core Research Foundation has an international presence, it can attract participants and presenters from a diverse range of countries, enhancing the global perspective of the conference.

**7. Commitment to Excellence:** Research foundations often have a commitment to promoting excellence in research and education. Aligning with such an organization reflects a dedication to high academic standards.

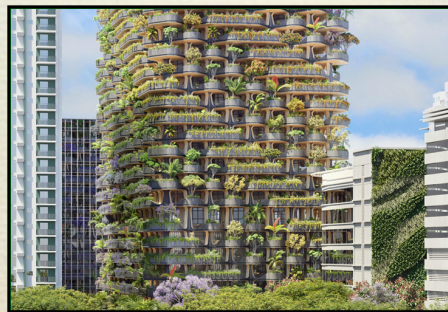

## About the City

Cebu is a province of the Philippines, in the country's Central Visayas region, comprising Cebu Island and more than 150 smaller surrounding islands and islets. Its prosperous port capital, Cebu City, retains landmarks from its 16th-century Spanish colonial past, including the Basilica Minore del Santo Niño church and triangular Fort San Pedro. Tops, an observation deck on Mt. Busay, has sweeping views over the city.

Cebu is the centre of Visayan-Cebuano culture and has preserved a strong Spanish tradition in its cultural life. Attracted by the island's focal position, the Portuguese navigator Ferdinand Magellan landed there and converted the ruler and chiefs to Christianity. He later was killed on nearby Mactan Island. There are numerous relics of the event in Cebu City.

Cebu was probably the first Philippine island to cultivate corn on a widespread basis after that plant's introduction by the Spaniards. Coarse-ground corn remains the staple food, though grain is imported from Mindanao, for Cebu is not agriculturally self-sufficient. Cebu's manufacturing industries are limited primarily to food processing. Coal, copper, limestone, gold, and silver are mined in the central hill country of the island. In addition to Cebu City, the major settlements on Cebu are Danao, Lapu-Lapu (formerly Opon), Toledo and Mandaue.
