Endorsed By:

1. PASUC, Philippines
2. CHEDRO-III, Philippines

The International Conference on Management, Education and Emerging Technology (ICMEET) is an academic conference that provides a platform for researchers, educators, and professionals from various fields to discuss and share their research findings, knowledge, and experiences. The conference covers a broad range of topics related to management, education, and emerging technologies, such as leadership, organizational behaviour, innovation, e-learning, artificial intelligence, and big data analytics. It aims to promote interdisciplinary research and collaboration among scholars and practitioners from different countries and cultural backgrounds. The conference typically features keynote speeches, paper presentations, workshops, and networking opportunities.

ICMEET would like to take pleasure that this platform can able to bring together all the research scholars, students, and delegates from academia and as well as industries to patronize and share their experience and knowledge in the field of Management, Education and Emerging Technology. This 4th edition of ICMEET was joined by countries like India, Oman, Philippines, Thailand, Malaysia, Brazil, Australia and Vietnam.

180 attendees, paper presenters, keynote Speech, listeners, students have benefited in many ways from this conference. We had received 200+ research articles for this edition of ICMEET, after peer review process our reviewing team had selected 127 articles got accepted and we had 60 paper presentation for both Days. The papers presented are from Philippines, Oman, Australia, India, Brazil.

Conference SCOPE:

ICMEET topics include, the following research and development areas/fields classified into 4 sessions:
